PRESIDENT'S MESSAGE

Found a wooden alto clarinet in the attic last week. Mighty old, but a warm reminder of the holiday season. It was time to see Grandma and Big G as we called Grandpa, cousins, aunts, uncles, and anybody else. Everyone was musical, especially G, who had everyone drag out any instrument, to form an instant caroling troupe. G, being a Withrow band teacher and bandmaster of Smitties Band could make any instrument work in harmony. One year we had two trumpets, baritone, clarinet, two voices (the choir), and one violin. He made it work, furiously writing new arrangements in the corners of old caroling books. And off we traipsed into the cold, to bring joy and good will to friends and family all over Greater Cincinnati. It was a wonderful tradition.

In North Avondale a new "tradition" is emerging called the Luminary Walk on Sunday evening, December 11 at 6:00 pm. This is the third year for the walk which is expanded to include Rose Hill, Beechwood, Avon Woods, Betula, Red Bud, Burton Woods, parts of Mitchell, Reading Road and Clinton Springs. Come, see the lights, join the walk and spread good cheer to you neighbors. Its magical, its inclusive, its tradition!

THE BELVEDERE'S 80TH ANNIVERSARY

By Michelle Baxter

The Belvedere was conceived and built to epitomize the Queen City's unique identity, cultural sophistication and tradition of permanence. The Belvedere was the first luxury high rise apartment built in Cincinnati in 1925. It was built by Jacob Warm and Frank Messer. The Belvedere is a 12-floor building with 84 condominium units. The gaslight streets surrounding the building located at Rose Hill, Reading Road, and Clinton Springs Avenue were some of the most sought after addresses in town. In the 1920's apartment living was unheard of in Cincinnati, once one left the central downtown area. However the Belvedere's cosmopolitan reputation spread fast within the elite social circles of Cincinnati. It became so popular that even the most influential could not get in because of the waiting list. The building was modeled after another luxury apartment building located on Park Avenue in New York City. The Belvedere's "New York Style" captivated and demanded the attention of all Cincinnatians. Many famous Cincinnati names have resided there over the past 80 years. Designed in Italian Renaissance, it is a landmark within our community. There are 12 small oval murals depicting pastoral scenes, with colorful and ornate patterns on an ivy background. The paintings are attributed to the late Herman Wessel, an established Cincinnati painter in the early -to- mid 20th Century. But because there are no clues, dates or signatures that indicate the artist's identity, after 80 years, the artist is still a mystery. The architectural history is highlighted by carved decorative limestone on the exterior, a wrought iron appointment both inside and out, a breathe taking oil painting on canvas in the lobby, ornate brass and wrought iron lamps at the front entrance, a U.S. Post Office mail chute (that still operates) and a beautiful roof top garden terrace, which provides a panoramic view of the city. Jack Wolking, President of The Board of

Each year you and your neighbors donate around \$10,000 which is added to the Neighborhood Support (NSP) monies to help run the neighborhood. In 2005 the City cut our NSP budget from \$12,000 to \$7,000. Therefore, we asked the neighborhood to make up the difference. So far 447 (out of 2,820 households) have donated \$11,764.96. Up from previous years but short of our goal to cover the NSP budget cut. There are 287 people who usually pay dues who have not yet paid. We have one month left.

Directors for The Belvedere stated, "their foundation is racially diverse, multi-aged and reflects many different professions and varieties of life styles. It is not homogenized like some other condos; it is the only rare luxury apartment building that is part of a neighborhood." Jack is passionate and committed to the community by having strong values and by keeping the architectural legacy alive in our City. The architectural beauty should not only represent a by gone era but should also remind all residents of the remarkable changes our neighborhood has been through over the years. On December 11th, between 6-9p.m., The Belvedere will be participating in the North Avondale "Luminary Stroll" and will be our beacon of light to pave the way into once was and still is the most sought after homes in Cincinnati. The Belvedere will always be the Citadel of quality within our wonderful neighborhood.

Hurricane Relief**

Forty three students from The New School held a fund raiser for victims of Hurricane Katrina and raised over \$1000 that will be donated to the Red Cross. The New School Student Board, consisting of two students from the fourth, fifth and sixth grades organized the fundraiser, which included a performance by a band comprised of former and current New School students. On December 2, Andrea Radd, a representative from the American Red Cross, will visit The New School to be presented with a check for \$1035.30.

**HORSING AROUND TOWN
By Michelle Baxter**

Jazz Cann (Clinton Springs) wife of Allen B. Cann, a North Avondale resident since 1968, has been living an equestrienne lifestyle, ever since she was a little girl. She is employed by Elegant Carriage and has been driving carriages for many years around The Greater Cincinnati/Northern Kentucky area. Jazz takes pride and joy in dedicating long hours at the stable to care for her horse Zachary, which was rescued only a year ago from being malnourished. Zach is a magnificent and healthy 6 year old black Percheron horse that has considerable stamina and is an excellent trotter. In early October, Jazz took me on a ride of a life time throughout the city but more importantly through our neighborhood. The round trip carriage ride was a total of 12 miles. We started and finished the ride in Over-the-Rhine. Zachary pulled us up Liberty Hill, over Highland to University, Vernon to Harvey, Washington to Clinton Springs, Burton Woods, Leyman, RedBud, Rose Hill and Beechwood. There was nothing better than actually feeling true horse power and our gas mileage was amazing! Spending the day riding through our neighborhood on an old fashion carriage was enchanting. It reminded me of how it once was before and during the turn of the century. Jazz is down to earth and has a wonderful philosophy on life. She has a magnetic personality and one of the best senses of humor. She truly knows how to have fun and will entertain you beyond your wildest imagination. One of the highlights to our adventure was when Jazz pulled up next to a car at a traffic light, to explain that we were lost. She would simply ask for directions to I-75 North or better yet Jungle Jim's. It was quite hilarious how many people actually gave us legitimate directions. It was even more hilarious that the two of us kept a straight face, while they gave us directions. The whole idea behind taking this ride through town was to scan the area for future carriage rides in our neighborhood during the luminary stroll. Unfortunately carriage rides will not happen this year, but with more support and participation it may be possible in the future. The best part of this adventure was receiving the warm greetings from residents within our community who came out of their houses to greet us with cheers and smiles. Our neighborhood's reputation is drastically changing and the positive feedback we received in just one day by "horsing around town" on a carriage was just the start in expanding our horizons.

I would encourage all residents this holiday season to book a carriage ride reservation with Jazz Cann, for a fun filled night out on the town for the whole family to enjoy!

For more information, please contact Jazz Cann at 235-4809.

CHRISTMAS TREE COLLECTION

Christmas trees and regular yard waste will be collected from 12/26 through 1/7 when set out on the regular waste collection day. No tree stands, ornaments or lights, please. After 1/7, until April citizens must schedule a pickup for yard waste or Christmas trees on their normal day by calling 591-6000.

PARTNERING FOR CHILDREN

By Pauline Daly

We want to form a partnership with Bushido, NANA, Avondale Community Council and the schools to help children understand each other and learn nonviolent solutions.

Bushido is a martial arts program which is a Way of Life. It has been in Cincinnati over 30 years and in recent years has operated out of the Old Firehouse at 639 Rockdale Ave. Sessions are held 6-8pm on Tuesdays and Thursdays and 10-12 on Saturdays. 221-4900

Young people 16-25 can take part in the internship program and be paid \$6 per hour.

They teach computer skills to children from the discarded computer equipment that is given them. If you have any you don't want they would make good use of the donation.

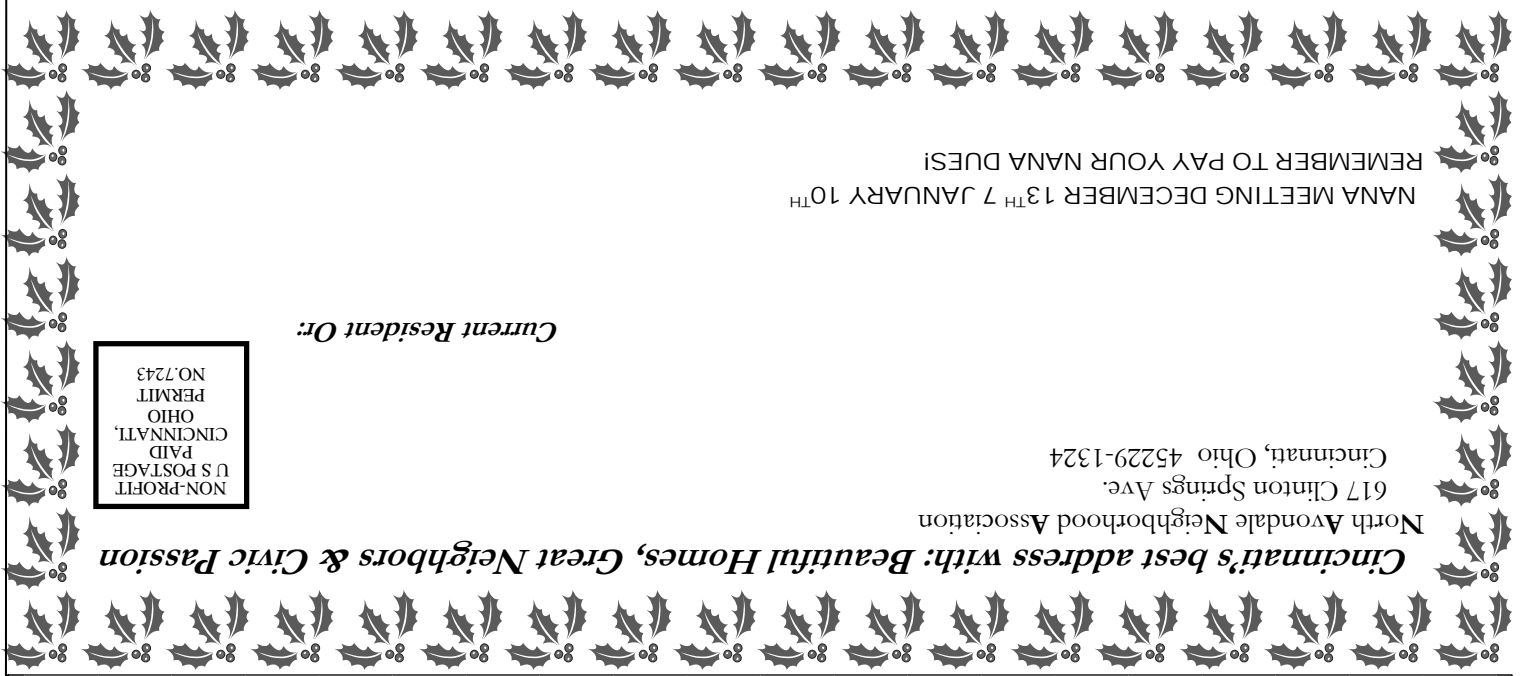

We need to form a committee of representatives from NANA and the Avondale Community Council to look at the ideas and give input about the application we would like to submit in January for Asset Forfeiture funds. Are you interested? Call Pauline at 751-8334

City Winter Operations In general, barring any extreme ice or weather conditions, citizens can expect:

- *On primary routes, at least one (1) lane will be open each way to allow traffic to flow within 24 hours after the end of an average storm (up to 3 ins. in 25 degree weather and up).
- *On residential routes, a single lane will be open to allow traffic to flow after the primary routes are cleared, or about 36 hours after the end of an average storm (up to 3 inches in 25 degree weather or warmer).
- *Extreme conditions may extend the treatment time to more than 48 hours (i.e. more than four shifts) after the end of the storm to provide a single lane open for traffic flow.
- *The City uses three treatment methods. *Anti-icing* is a pre-treatment product (salt or salt brine) used on the streets to avoid snow or ice binding to roadways. *De-icing* occurs by using calcium chloride and salt on streets during the storm to melt snow or ice precipitation. Finally, *plowing* uses snow implements to remove higher accumulations of snow before using deicing products and is the slowest method.
