PRESIDENT'S MESSAGE

Dear Neighbor, Enclosed in this month's newsletter, please find a 1-page survey which I ask that you take a few minutes to complete, fold, tape, stamp and return or go online to http://www.surveymonkey.com/s.aspx?sm=y58hh_2bqDdKaUYs6tE0E96w_3d_3d to the online version of the survey. A University of Cincinnati Urban Design/Planning class is including our neighborhood in a project with St. Bernard which targets the business district area surrounding and including Mitchell Ave and Vine Street in an attempt to draw on our neighborhood's strengths and discover our needs as a community and improve that gateway into our neighborhood.

This month we've also included the latest report (as of printing date) from the District 4 police on this most frustrating, continued rash of break-ins and attempted break-ins in our neighborhood. (page 4) Keep a watchful eye and, as always, please report any suspicious activity immediately to the police.

Lastly, though I plan on staying on the NANA board as a committee chairperson, my term as President comes to an end this next month at our NANA Annual Meeting. Please know it has definitely been a great experience for me and I've met a lot of great neighbors who care very much about their neighborhood.

I wish you all a safe and healthy May!

Tim Yosmali

What are the Police doing to stop the burglaries?

➤The City is already funding increased patrols in the neighborhood and at the present they do not feel additional patrols would increase catching or stopping the suspect. The additional patrols consist of marked cars, unmarked cars and the Violent Crimes Squad. When the unmarked cars and Squad are in the neighborhood, there are less marked patrols to encourage the thief to surface. ➤The postal workers have been briefed and asked to report suspicious activity. ➤Coordination with other Districts. There have been similar crimes in District 5, which includes Clifton, and they suspect he has expanded his geography. ➤Also numerous other initiatives such as license plate ID'ing, night vision equipment, DNA testing...

Neighborhood Advice

➤Establish Neighborhood Watch groups. ➤Report to 765-1212 EVERYTHING suspicious (at the time of the incident) to the District ASAP. The Police believe that the suspect selects his targets by driving around during the day or early evening. ➤Get a security camera with night vision and give the police a disc with any suspicious activity. ➤Re-energize the Citizen's on Patrol teams. ➤Set your alarms, lock your doors, turn off inside lights when you go to bed and put all personal valuables out of sight. ➤Become a member of the Yahoo group <http://groups.yahoo.com/group/NorthAvondaleOnlineCommunity/join>

THE NEW SCHOOL MONTESSORI

●281-7999 ● 3 Burton Woods Lane ●www.thenewschool.cc

Each year, The New School Montessori gives a lucky student the chance to be Director for a Day. With the counsel of her classmates, our student director adopted a few new policies. We had children and staff coming to school in wacky outfits and hairdos, we ate a pancake breakfast and a picnic-pizza lunch, and enjoyed extended recess time outdoors. Bravo to our wise and creative leader!

The nine- to twelve-year-olds celebrated Earth Day this year by planning a Monarch butterfly garden to serve as a “waystation” for butterflies migrating between Mexico and the United States. Milkweed plants provide for future generations of Monarchs by supplying the resources for the larval stage. Heavy nectar producers like zinnias offer fuel to sustain the adult Monarchs on their long migration.

As more farmland is developed into neighborhoods and herbicides eliminate milkweed plants, Monarch butterfly populations have significantly decreased. Won’t you consider joining us by planting a Monarch butterfly garden too?

Community Drive Crime Control (CDCC) Workshop

All Cincinnati neighborhood representatives are invited to attend. Community-Driven Crime Control (CDCC) is a different way of thinking about crime fighting - different than CPOP, different than traditional policing.

There are four CDCC operating principles:

- The Democratic Principle: Neighborhoods should drive crime fighting.
- The Social Resource Principle: Neighborhoods draw upon all kinds of resources to fight crime.
- The Collaboration Principle: Neighborhoods fight crime with help from others as a team.
- The Reality Principle: Community crime fighting should be driven by evidence.

The CDCC workshop is organized to assist community leaders and activities to learn about the theory and practice of CDCC. The workshop will cover the following subject matters: ➤ Theory of CDCC ➤ Practice of CDCC ➤ Techniques of CDCC

North Avondale and Bond Hill will discuss their experience in putting CDCC principles and methods into practice and share lessons learned, enabling other neighborhoods to move forward quickly

The CDCC Workshop will be held on two alternate dates and times ➤ Thursday, May 29, 2008, 6PM to 9PM, ➤ And repeated on Saturday, May 31, 2008, 9AM to 12Noon. Both held at Kelley Auditorium, Alter Hall, Xavier University
Co-sponsored by: Department of Criminal Justice, Xavier University, Community Building Institute, Xavier University, Invest in Neighborhoods Inc.

PROPOSED COMMUNICATION TOWER CONDITIONAL USE APPROVAL REQUIRED

DukeNet Communication Services, LLC ("DNCS"), a non-regulated, wholly owned subsidiary of Duke Energy Corporation, provides wireless communication infrastructure solutions to major wireless carriers in the Midwest and Southeast. DNCS also develops wireless communication facilities on Duke Energy owned real estate.

DNCS is proposing to build a 130' direct-embedded utility pole on Duke Energy's Paddock substation property located near the intersection of Paddock and Reading Road (behind the Old Firehouse). The structure will enhance Cricket Communication's wireless services for users in an area where service is limited or does not exist. The antennas will be flush mounted to the pole, and collocatable for two additional wireless tenants. Currently, there are not any viable collocation opportunities for Cricket Communication's network in the area.

This is a picture of an existing direct-embedded utility pole located at 1250 Gest St., Cincinnati, OH 45202 (N39 06 26, W84 32 15). The 102' structure is similar in character to what the direct-embedded utility pole will look like.

Max Lind Manager, Sales and Business Development DukeNet Communication Services,

Editors note: A hearing will be required and NANA will be involved. Please send your comments to clmorse@fuse.net or call the NANA Office voice mail or any Board member listed on page 4.
