## [“I just heard a pack of coyotes kill a small dog.”](#)

Have you seen (or made) this statement in neighborhood groups on social media? It's one of the most common sources of panic in the suburbs. And, in almost all cases, it's actually not true. Coyotes live in small family groups of 2-8 individuals, usually a mated pair and their young [...]

## [Wildlife in North Avondale: February 2022](#)

I've been thinking about creatures, other than humans, that live in/about Rose Hill. Here is my list, other than cats (domestic), dogs, hamsters, gerbils: Deer, possum, squirrels, chipmunk, mouse, groundhog, raccoon, coyote (though I haven't seen one in the last year or two... where are they?), sewer rat (last one [...])
