

Factorization is Fun!

Description

In a world where things are breaking down all the time into smaller component parts (chemical compounds, organic matter, atoms) it's not surprising that mathematics would follow suit.

New School Montessori students are using factorization to break up complex numbers into their smallest factors. It's nice to know that even in math you can have fun breaking things apart!

TNSM Virtual Open House Feb 3 Please join us on Zoom for our virtual winter open house, beginning at 3:30 p.m. on Tuesday, February 3, 2026. To sign up, go to our admissions page on our [website](#).

Teachers, board members and admin staff will share with you and can answer questions.
