Law and Safety

Description

CincyAlert, powered by Smart911, is the official public alerting and emergency notification system used by the City of Cincinnati. Smart911 is a free national service that allows residents to create a Safety Profile for their household, containing information they want 9-1-1 and first responders to have in an emergency. This information is accessed by 9-1-1 call takers and first responders, providing them with critical details to assist during an emergency.

Click here to learn more and to register for CincyAlert.
