

NANA Gardeners Needed

Description

default watermark

Dear neighbors,

The Beautification Team is looking for a few additional gardeners who are interested in adopting a garden area. There are also a few garden areas that have been adopted but need additional hands to help maintain them. The gardens currently in need of adoption include the beds at the Dana Triangle, the roundabout, and the smaller bed at Marion Triangle. The flower gardens help to show our community members and visitors the beauty of our neighborhood and the care we share for the earth and one another. Working in the gardens can also be a way to learn, heal, and connect. If you are interested in caring for our common greenspaces, please contact me, Jennifer Harten, at jharten7024@gmail.com
