

Development

Description

The neighborhood development process is intricate and complex. North Avondale's business district, between Clinton Springs Avenue and Paddock Rd. brings further considerations. The North Avondale business district is best described as an urban business district in revitalization phase with architecturally significant buildings situated along the busiest line in the Metro system (according to Better Bus Coalition) and surrounded by a passionate, residential community that has been researching and planning what the neighborhood wants for most of the last decade.
