

The New School's Kaleidoscope Center opens in November

Description

The New School Montessori invited neighbors and friends to the Kaleidoscope Center Open House on Sunday, November 10, 2024.

It was a time to walk the space and appreciate what the The New School community can do when it comes together. In 2022, The New School Montessori launched a \$2 million capital campaign for a new arts and community space. The Kaleidoscope Center is an eco-friendly building, and it marks a watershed moment in the school's 54-year history. It provides a performance space, art room, multi-purpose classroom and administrative offices.
