

Wildlife in North Avondale: February 2022

Description

default watermark

Iâ??ve been thinking about creatures, other than humans, that live in/about Rose Hill.

Here is my list, other than cats (domestic), dogs, hamsters, gerbils: Deer, possum, squirrels, chipmunk, mouse, groundhog, raccoon, coyote (though I havenâ??t seen one in the last year or twoâ?¦ where are they?), sewer rat (last one seen was by Lois Nizny, in our basement in winter of 1976), oh, yes, feral cats!, and thanks to cicadas, moles; garter snake, black snake (only one), frogs, (Lazarus) lizards, various birds, fish (in ponds)â?¦ Lois said she saw a rabbit, Spring 2021 (I didnâ??t)â?¦

A neighbor said he saw a fox cross our garden. Iâ??ve not seen a fox in 50 years.

Goshawk/ Burton Woods

Barred Owl / Burton Woods

Fox / Beechwood

default watermark

Deer

Coyote

Anyone add any more ?

Mel Nizny, MD

Editor: According to this article, skunks should be out and about soon. Read more here
