### PRESIDENT'S MESSAGE

Dear Neighbors,

I hope you had a wonderful holiday season. A boisterous winter is certainly upon us. Remember to: stay warm; drive carefully, keep extra blankets and warm clothing in your car and keep your pets safe and warm with plenty of water.

#### Coyotes

Speaking of pets, we have received some inquiries concerning coyotes being spotted in the neighborhood. We always have a link at the bottom of the monthly newsletter that has some helpful advice on dealing with coyotes. Coyotes are allowed to be in the city. They now occupy everywhere in North America. Here are some helpful links for you:

#### Thank You

Thank you to our amazing volunteers Beth Abare Ewing and Michael Caporale for taking the time to purchase and deliver meals and cookies to the N.A. Recreation Center, our local Engine 9 and District 4 Police Station. They were thrilled and beyond appreciative of the generosity.

#### 2019-2020 NANA Nominating Committee

The Nominating Committee is forming and NANA is gathering names for the Nominating Committee and the

2019/2020 slate of elected officers for the North Avondale Neighborhood Association. If you are interested or have anyone to suggest, come to the NANA General Meeting or call the NANA answering machine at 401.4546 or email [nanacincinnati@gmail.com](mailto:nanacincinnati@gmail.com). Serving on the NANA Board is a great way to give back to your community and help in making our community grow and thrive like we envision. You can make a difference!

#### Meetings

The North Avondale Neighborhood Association (NANA) meets monthly, on every second Tuesday of the month at 7:00 pm, at the North Avondale Montessori School Cafetorium. All meetings are open to the public and we encourage attendance. The next meeting is February 12, 2019. We have two speakers coming:

- **Melba Moore**, New Health Department Commissioner
- **April Pandora** Urban Farmer/Managing Member Eden Urban Gardens, LLC

Meeting minutes are published at: <https://northavondalecincinnati.com/nana-minutes/>

#### Yard of the Month

Jolene Struebbe and Jim Miller of 4018 Beechwood Avenue were so excited to be selected NANA Yard of the month for December! Thank you NANA! We so enjoy sitting on our front porch and visiting with neighbors as they walk, run, or drive by our house. Even though we have lived in our home for 33 years, our garden is ever evolving, as is our window box and front door design. We look forward to seeing everyone out in the Spring!

*Jolene Struebbe (Beechwood Ave.)*

*Winter is the time for comfort, for good food and warmth, for the touch of a friendly hand and for a talk beside the fire: it is the time for home.*

Edith Sitwell, "Taken Care Of"

Happy Valentine's Day and stay warm!

**New School Montessori (3-6) Students Brush up on Their Birding Skills.**

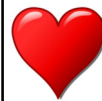

Blue jays, robins, cardinals, chickadees. New School Montessori preprimary students have become avid birdwatchers and budding ornithologists as they focus their binoculars on birds visiting the Preprimary Woods. While indoors, students study bird songs and bird nests, marveling at the savviness of these creatures and their nest-building skills. Students showcase a bit of their own resourcefulness as they repurpose orange-rind cups as receptacles to be filled with birdseed to be strung in the trees along with garland-threaded popcorn and dried cranberries.

The children have been learning a lot about birds - even creating a sequencing work that shows a bird's life cycle. They were surprised to hear how different birdsongs are from one another. Students study in pairs and take turns being the one to close her eyes or to activate each bird-species' song by squeeze-prompting the toy bird to sing.

Students spot birds in pictures that have been hidden around the room and they mark each bird type off their bird-counting tally on their clipboard. This activity is perfect for visual discrimination and for recognizing differences in birds. Another work that focuses birders' attention on differences in wing, head, tail and body color is the magnetic work which requires students to follow the printed pattern as they build the pieces of the birds to match the pictures.

### Important Fair Housing Survey

The City of Cincinnati and Hamilton County are collaborating to look across the region and identify barriers to fair housing. Fair housing laws in the United States make it illegal to discriminate against people based on race, color, religion, place of national origin, sex, family status or disability in their choice of housing. Every so often cities and counties are asked by the federal government to review their local housing markets and identify any barriers to fair housing or discrimination that may be taking place, and to recommend changes that might improve people's options. The Community Building Institute is working with the City of Cincinnati and the Hamilton County **to identify unfair and illegal housing practices in our area.** An important part of this work is to hear from all kinds of people in the region about how they are finding housing, how their housing works for them and how easy it is to move when they want to. We hope you will **take about five minutes** to respond to the survey in the attached link to tell us about your housing experiences in Cincinnati and Hamilton County. We want to hear from owners and renters and people from all over the county, if you live in Hamilton County we want to hear from you, so thanks in advance for your time and your participation. If you have questions or want additional information about this process please feel free to contact CBI. You can email Emma Shirey at shireye@xavier.edu.
